Notes: The investment performance for the Canadian All Capitalization Equity, the Canadian Diversified Equity, the Canadian Small Capitalization Equity, and the Canadian Long/Short Equity strategies is from composites of identical mandates. For the All Country World Equity, the investment performance is that of the Triasima All Country World Equity Fund.

Investment performance for the Canadian Large Capitalization Equity strategy is derived from linking together over time the performance of a mutual fund trust from December 1999, to February 2005, of a real time model portfolio from March to September 2005, with the composite of all Canadian Large Capitalization Equity mandates since October 2005.

Investment performance is shown before management fees, performance fees, and expenses and is annualized for periods over one year. All relevant standards and rules are respected in the creation of the performance composites. Future investment results will differ from the past results.
