

Investment Objective

The American All Capitalization Equity strategy invests in stock securities and trust units of American organizations. The portfolio is focused through 30 to 75 holdings and is well diversified across the various sectors of the American equity market. Securities are chosen amongst a wide spectrum of market capitalizations, including small capitalization securities. The investment performance objective of the strategy is to surpass over time the return of the S&P 500 Index.

Investment Approach

Since 1998, the team of investment professionals at Triasima have employed their proprietary research process that uses a multi-disciplined methodology called the "Three Pillar Approach" to provide strong relative returns to Triasima clients regardless of market conditions.

Available under: Segregated accounts, pooled fund and SMA model
