

Investment Objective

The Canadian All Capitalization Equity strategy invests in stock securities and trust units of Canadian organizations. The portfolio is focused through 40 to 65 holdings and is well diversified across the various sectors of the Canadian equity market. Securities are chosen amongst a wide spectrum of market capitalizations, including small capitalization securities that may represent from 0% to 15% of the portfolio. The investment performance objective of the strategy is to surpass over time the return of the S&P/TSX Composite Index.

Investment Approach

Since 1998, the team of investment professionals at Triasima have employed their proprietary research process that uses a multi-disciplined methodology called the "Three Pillar Approach" to provide strong relative returns to Triasima clients regardless of market conditions.
