

Investment Objective

The Canadian Diversified Equity strategy invests in stock securities and trust units of Canadian organizations and up to 10% of the market value of the portfolio in non-Canadian organizations. The portfolio is focused through 30 to 75 holdings and is well diversified across the various sectors of the equity market. Securities are chosen amongst a wide spectrum of market capitalizations, from medium to large capitalization securities. The investment performance objective of the strategy is to surpass over time the return of the S&P/TSX Composite Index.

Investment Approach

Since 1998, the team of investment professionals at Triasima have employed their proprietary research process that uses a multi-disciplined methodology called the “Three-Pillar Approach” to provide strong relative returns to Triasima’s clients regardless of market conditions.
