

Investment Objective

The Canadian Equity strategy invests in stock securities and trust units and seeks capital appreciation and dividend income. The strategy is very focused through 30 to 75 holdings predominantly selected from the universe of the 120 largest organizations in Canada and it is well diversified across the various sectors of the Canadian equity market. The investment performance objective of the strategy is to surpass over time the return of the S&P/TSX Composite Index.

Investment Approach

Since 1998, the team of investment professionals at Triasima have employed their proprietary research process that uses a multi-disciplined methodology called the "Three-Pillar Approach" to provide strong relative returns to Triasima's clients regardless of market conditions.
